# Midterm Project Idea - Contact Form

Brian Kim

Overall Design

Contact Form Component

- Using React state management

- Formik - NPM package(https://www.npmjs.com/package/formik)

- Email using API from Netlify & Sendgrid to actually send email to me from

  something like no-reply@briankim.pro

Knowns & Unknowns

Knowns:

- Overall structure and the code itself

Unknowns:

- Optimal design that is user friendly
